2:1 eco home

Manual combined two lever punching and binding machine for RENZ **ONE PITCH®** wire comb binding

FEATURES

- [+] the entry level two lever punch and binding model for **RENZ RING WIRE®** and **ONE PITCH®** wire comb binding
- [+] separate punch and binding lever for easier punching and binding
- [+] for sizes A4 and A5
- [+] punching capacity up to 10 sheets*
- [+] adjustable side stop
- [+] holding fixture for binding elements
- [+] binding capacity up to 120 sheets (12,0 mm)

*70/80 gr./m²

WORKFLOW

Punching

Insert paper into the punching slot and pull the lever forward to punch the paper.

Inserting

After punching insert the sheets into the integrated holding fixture.

Closing

Take punched book out of the holding fixture and put it vertically into the closing unit to close the wire element.

Finished!

By using the integrated measuring scale it is very easy to determine the diameter of the wire element. Put the book under the measuring scale, push the slider downwards and read the correct diameter of the binding element.

The adjustment scale helps to select the different diameters for closing.

Order no. 494 720330 (0112)
